SOFT SKILLS

- Analytical thinking for troubleshooting and optimization
- Effective collaboration in diverse teams
- Strong verbal and written skills
- Efficient task prioritization and deadline management
- Quick learning and tech adaptability
- Project leadership and mentoring experience
- Innovative problem-solving and process improvement
- Precision in coding and execution

SUMMARY

A highly motivated Software Engineering student with a strong foundation in Java, Python, and web development. Passionate about software engineering, with hands-on experience in developing scalable applications, automation systems, and cloud-based solutions. Skilled in full-stack development, data management, and software security, with a proven ability to design and implement high-performance applications. Strong problem-solving and analytical skills, combined with a keen interest in machine learning and emerging technologies. Seeking opportunities to contribute innovative solutions and technical expertise to dynamic projects while driving business growth.

EDUCATION AND QUALIFICATIONS

- BSc (hons): Bachelor of Science in Computing 2nd Year (reading)**
National Institute of Business Management (NIBM) May 2024- present
- Completed a **Diploma in Software Engineering** with Distinction
National Institute of Business Management (NIBM) Mar 2023- May 2024
- Completed a **Foundation in Computer Science**
National Institute of Business Management (NIBM) Dec 2022- Mar 2023
- Completed a **Certificate Course in Graphic Design**
National Institute of Business Management (NIBM) Dec 2022- Mar 2023

PROJECTS

- Movie Ticket Booking System using NetBeans
- Website for Marine Spice Restaurant Colombo
