- Hosting
- Domain
- Adobe Photoshop
- Adobe Illustrator

Passionate Frontend Developer specializing in ReactJS with Vite, crafting fast and scalable web applications. Experienced in building WordPress projects and exploring modern web technologies like Tailwind CSS, Node.js, and Express.js.

Experience

Freelance Web Developer, UI/UX Designer & Graphic Designer   2019 - Present

Fiverr International LTD.

- 6+ years of experience as a freelancer on Fiverr, collaborating with 400+ clients worldwide.
- 2 years of experience as a freelance WordPress developer on Fiverr and local marketplaces.

Projects

Portfolio Website - ReactJS   visit website

Built using ReactJS with Vite and Bootstrap as the CSS framework, these projects showcase my ability to develop responsive, user-friendly designs and interactive interfaces.

MediMate Booking System - NodeJS (Group Project)   view repository

A web-based medical appointment system that optimizes the scheduling workflow for both healthcare providers and patients. Built using Node Js, Express Js, Ejs, Bootstrap, and MongoDB.

E-Commerce Website - WordPress   visit website

Developed a full stack E-commerce website with a focus on user experience and management features. The project includes order management, user management, contact forms, a secure payment gateway, and seamless WooCommerce product management.

Library Management System - Python   visit website

LibriSync is a powerful Python-based system designed to organize and manage all your educational resources in one place. The frontend is built using React.js and Vite, while the backend is fully powered by Python.

Client's Website - WordPress   visit website

This website for Carrie Collins to publish their books. Includes Portfolio, Newsletter, Upcoming Events, Contact Forms and Backup Security Management.
